COMMERCIAL.

HONOLULU, AUGUST 20, 1874.

The commercial statistics of the port of San Francisco are published in the weekly papers received by late mail, and they show a general falling off of the exports and imports to and from most foreign countries. The total exports for the first six months of the year were \$12,744,000 against \$16,000,000 for the same period last year. The import trade with the United States, the Pacific Coast, and with the Hawaiian Islands for the past six months totals to \$214,500, against \$230,000 for the same time last year. The steamship companies expect this year will see the islands fail to develop any increase of business. Some of this is due to the unfavorable character of our sugar market at present.

It is well known, that sugar is the chief staple of export from the Hawaiian Islands. San Francisco has not presented a good market for such shipments, and now there is little hope depending to lay down to the Pacific Coast at the Jetty.

Having arrived on the 16th inst., the British ship *Tarleton*, aged 26 days from the Azores, we have no news to add, save to report this week. This vessel was under charter as a gun boat at Howard's Island, and sailed for that destination on Sunday last.

The brig *Alma* has fully loaded with produce for San Francisco, and sails this morning. She takes a part of the large Niihan wool clip, which amounts to about 150,000 pounds. The price paid is reported to have been 62 cents, while, considering that the wool is classed as very fine, it is not low. It is understood that the purchases of the ships of 1872 and 1873 will be 62 1/2 cents. The origin of this wool is said to come from the islands of Maui and Oahu, and it would be considered a choice article. We hear of the sale of other clips of wool, generated free from burs, at 24 to 25 cents per pound. The latter is the price paid for Mr. Spangler's mutton clip, his sheep ranging on mountains as high as eight or nine thousand feet above the sea, and in the finest regions.

The past week has been an extremely dull one. The only vessel in port hails is the H. C. Wylie, now receiving stores for San Francisco. She will get off on Saturday.

Foreign Commercial Items.

The Bank of America has deposited \$15,000 in its vaults at Fiji. The value of the exports from Great Britain to the United States during the first three months of this year was \$10,423, a falling off of \$4,217,740 compared with the corresponding period in 1873, when the exports amounted to \$14,734,613.

The German Government has decided to reduce for three years and then abolish altogether the import duties. The reduction, which takes effect in October, is to be 10% on lumber and 20% on iron, tin, copper and black sheet, bringing down the rate 2 1/2 to 3%. It is to be 10% on all articles of commerce, excepting coal, iron, copper, tin, lead, zinc, silver, gold, and 20% on cottons, silk, and other raw materials. These reduced imports will according to present arrangements be absolutely re-exported on the 1st of January, 1877.
